### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Buhler (U.S.

Patent Application Publication number US 2004/0012620 A1)

Regarding claims 1, Buhler discloses the computer software (105b, 105c) for enabling a computer to execute a predetermined processing; wherein said computer software comprises:

a processing for calculating the display brightness in a certain window displayed on the screen of a display unit; and

a processing for controlling said display unit so as to change said screen brightness of said display unit according to said calculated display brightness (Fig. 1, page 5).

Regarding claim 2, Buhler discloses the software wherein said processing for controlling said display unit so as to change said screen brightness of said display unit uses said power management function of said operating system (Fig. 1, page 5).

Regarding claim 3, Buhler discloses the storage medium (110) for storing a computer software to be executed by a computer readable by an input device of said computer;

wherein said computer software enables said computer to execute:

Art Unit: 2821

a processing for calculating the display brightness in a certain window displayed on the screen of a display unit; and

a processing for controlling said display unit so as to change said screen brightness of said display unit according to said calculated display brightness (Fig. 1, pages 5 and 6).
